

Bridging the gap from Hospital to Home...

Thomas with Therapy staff Left to right: Kristin, Thomas, Tracy, Carolyn, Sandy

When Thomas was asked what his goal for his Rehabilitation Program was, he immediately said "To play golf again." Tom was a professional Golf Caddy and also an excellent golfer. He came to Cumberland Nursing and Rehabilitation Center with balance and mobility issues that made this impossible for him to accomplish.

For the past 2 years Tom has worked diligently to improve his walking and balance skills. He has completed a Physical and Occupational Therapy regimen that included upper body and core strengthening, balance and posture training. He has gradually advanced to walking 20 laps around Cumberland Nursing with his walker on a daily basis and has now added Wii golf to his routine a couple times a week.

Saturday Tom is getting his wish. He is going golfing with his best friend at Burnside Golf Resort.

Congratulations and Best of Luck Tom. Thank you for selecting Cumberland Nursing and Rehabilitation Center to help you reach your goal.
